Ivan Chernyakhovsky Ukrainian Defense University · Kyiv · 2022

EXPECTATIONS FROM THE JOB

I am looking for a new company for long-term collaboration. I have the expectation to work on various projects that will help me elevate my professional level, particularly learning React and Next.js, as well as using new web tools and technologies. Additionally, I am seeking a team with a friendly atmosphere and have a strong desire to learn and contribute to the company. While React and Next.js are my primary goals, I am also open to learning other technologies and working on various tasks
